

## Erratum

Due to a printing error, the article “*Candida albicans* Intralesional Injection Immunotherapy of Warts” (*Cutis*. 2002;70:185-192) has an incorrect legend on Figure 2. The chart should read: complete clearing, 51%; partial clearing, 41%; and no improvement, 8%. A corrected figure appears below.

*Cutis*® makes every possible attempt to ensure accuracy in its articles and apologizes for the mistake.

**Figure 2.** Outcome of *Candida albicans* intralesional injection immunotherapy in children aged 6 to 18 years (n=39).
