

PRODUCTS

Treatment for Cradle Cap

Stelaker, an over-the-counter topical product, acts on the symptoms of cradle cap as well as the causes. Alpha hydroxy acid removes the scaling scalp rash while butyl avocadate restores the skin's balance. Moreover, capryloyl glycine and glycine inhibit the growth of microorganisms, while aloe vera and borage oil soothe and hydrate the scalp. For more information, call Mustela USA at 800-422-2987.

Toys for Special Needs Children

The online educational toy company Ebeanstalk has added a Web page featuring books and toys for developmentally delayed children. The specially selected items tap into multiple modalities to help hold children's attention and help them learn the skills they need. The company also of-

fers an expert-hosted "e-mail hotline" with support for prospective purchasers. For more information, visit the company Web site, www.ebeanstalk.com.

Early FluMist Shipments

MedImmune has started shipping FluMist (live influenza virus vaccine, intranasal) for the 2008-2009 influenza season, maximizing opportunities to vaccinate. The company plans to produce approximately 12 million doses. For more information on FluMist, call 1-877-358-6478 or visit www.medimmune.com/pdf/products/flumist_pi.pdf.

Nonpesticide Head Lice Gel

LiceMD is a pesticide-free gel designed for use against head lice, including eggs and nits. The gel contains the synthetic lubricant dimethicone, and it is odorless and hypoallergenic. The gel is sold together with a specially designed comb for maximum effectiveness. For more information, contact Combe Inc. by visiting the product Web site, www.LiceMD.com.

Handheld Lice-Screening Light

The Nit Lite is a handheld lice detection device that combines a magnifying lens with a low-energy ultraviolet A light. The UVA light causes the nits to glow, which

makes finding and removing nits from hair shafts more efficient for parents, teachers, physicians, or other lice-screening volunteers. For more information, contact the manufacturer, Rite Lite, by visiting www.rite-liteinc.com.

Phototherapy Unit for Hospital, Home

The BiliTx phototherapy system is designed for both clinicians and parents to use in treating infant and childhood jaundice. The easy-to-operate system weighs less than 3 pounds, features multiple configurations, and has a blue LED light source. For more information, contact Respiroics Inc. by calling 800-345-6443.
