## **Bellafill**

Suneva Medical, Inc, announces US Food and Drug Administration approval of the polymethylmethacrylate collagen filler Bellafill for the correction of moderate to severe, atrophic, distensible facial acne scars on the cheek in patients older than 21 years. Bellafill adds volume to the skin to lift and smooth out pitted acne scars to the level of the surrounding skin. Bellafill also is indicated for correction of nasolabial folds. For more information, visit [www.bellafill.com](http://www.bellafill.com).

## **Benzac**

Galderma Laboratories, LP, launches Benzac Acne Solutions, an over-the-counter 3-step acne regimen consisting of a skin balancing foaming cleanser, intensive spot treatment, and blemish clearing hydrator. In addition to salicylic acid, Benzac also contains Kakadu plum (an antioxidant) to brighten the skin, lemon myrtle (an astringent) to reduce excess oil, and zinc to act as a barrier against skin moisture loss. Benzac contains pharmaceutical-grade East Indian sandalwood oil to calm and soothe the skin. For more information, visit [www.benzac.com](http://www.benzac.com).

## **The Promius Promise App**

Promius Pharma, LLC, marketers of Zenatane (isotretinoin capsules), launches The Promius Promise App designed to help educate and guide patients through the iPLEDGE program from the first visit to the last visit. The app is free for patients who have received a Zenatane prescription through The Promius Promise program. Patients can easily find important information, which may help with treatment compliance. The app will be useful for young adults and teenagers as well as their parents. For more information, visit [www.zenatane.com/toolkit/Promius-Promise-Enrollment-Form.php](http://www.zenatane.com/toolkit/Promius-Promise-Enrollment-Form.php).

## **Soolantra**

Galderma Laboratories, LP, announces US Food and Drug Administration approval of Soolantra Cream 1% for the once-daily treatment of inflammatory lesions of rosacea. Ivermectin, the active ingredient in Soolantra, has both anti-inflammatory and antiparasitic activity. The basis for the cream formulation is Cetaphil Moisturizing Cream. Soolantra offers patients improvement as early as week 2 of treatment. For more information, visit [www.soolantra.com/hcp](http://www.soolantra.com/hcp).
